RENDI RIPALDI

JUNIOR FULL-STACK DEVELOPER

Bandung, Indonesia | rendiripaldi225@gmail.com | +62 89507849461|linkedin.com/in/rendi-ripaldi

PROFESSIONAL SUMMARY

D3 Information Technology student in final semester with practical experience in building end-to-end Full-stack Web and Mobile applications. Skilled in UI design, backend development, and infrastructure deployment using technologies such as Flutter, React, and Node.js. A detail-oriented, adaptable professional with proven problem-solving capabilities in both independent and team environments. Passionate about automation, Mobile Development, DevOps, and AI tools with a commitment to continuously learning and implementing the latest technologies in software development cycles.

EDUCATION

Universitas Logistik dan Bisnis Internasional | D3 Information Technology | 2023 – 2026 (Expected)

- GPA: 3.6 / 4.0
- Relevant Courses: Web Programming, Database, Computer Networks, Mobile Programming, System Security
- Activities: Active in various collaborative application development projects and group coding activities

CERTIFICATIONS

SAP01 - SAP Overview – SAP University Partnership Program (PT Harfan Tri Megah) – January 2024

INTERNSHIP EXPERIENCE

Backend Developer – Amanda Mart | March 2026 – May 2026 | Indonesia

- Developed and deployed a B2B portal using Laravel framework with PostgreSQL database
- Implemented secure authentication system with Two-Factor Authentication (2FA)
- Designed and optimized PostgreSQL database schema for B2B business operations
- Ensured system security, data integrity, and scalability throughout the portal development

PROJECT EXPERIENCE

Fullstack Developer

Bank Sampah Web Based Points System – Personal Project | September 2024 – February 2025 |Indonesia

- Built a waste bank management system based on web using PHP, Laravel, and Filament
- Designed and implemented CRUD modules for customer, transaction, and report management

- Integrated admin dashboard with Filament for easy real-time data management
- Managed MySQL database and deployed application on local server

Fullstack Developer

Gudang Pro – Warehouse Management System | June 2025 – August 2025 | Indonesia

- Developed warehouse management web application using React, Vite, and Node.js (backend)
- Built companion mobile application using Flutter for mobile stock data access
- Designed REST API for data synchronization between web and mobile applications
- Implemented inventory management features, incoming/outgoing reports, and real-time notifications

Fullstack Developer

My Daily Kos — Aplikasi Keuangan Kos | September 2025 -Febuari 2026 Indonesia

- Built mobile financial management application for boarding house residents using Flutter
- Integrated Firebase as backend (Firestore, Auth, Storage) for real-time data
- Implemented automatic receipt scanning with OCR using n8n automation
- Designed financial data flow with charts and monthly spending summaries

Collaborative Project

Trading Dashboard – Collaborative Project | January 2026 – February 2026 | Indonesia

- Served as Backend Developer in building trading dashboard infrastructure using Node.js and Express.js
- Designed and implemented GraphQL API with Apollo Server for efficient complex data retrieval
- Managed database schema and migrations using Prisma ORM integrated with PostgreSQL
- Collaborated with Frontend team (React) to ensure smooth data integration and optimal application performance

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, PHP, Go, Python, Dart
Frontend	React.js, Next.js, Vite, Tailwind CSS, Flutter (Mobile)
Backend	Node.js, Express.js, Laravel, REST API, GraphQL
Database	MySQL, PostgreSQL, MongoDB, Firebase Firestore, SQLite
DevOps/Infra	Docker, Nginx, Linux, Cloudflare, Vercel
Tools	Git, GitHub, Postman, VS Code, Android Studio, n8n

ADDITIONAL INFORMATION

Bahasa	Indonesian (Native), English (Intermediate technical documentation reading)
Soft Skills	Problem Solving, Fast Learner, Adaptable, Team Collaboration, Attention to Detail
Ketertarikan	Open Source, Automation & AI Tools, Cloud Infrastructure, Mobile App Development
